VEA Inc is a producer of over 100 instructional educational programs a year, designed to bring learning to life for students across the US and Canada.

On-going and extensive qualitative and quantitative research with educators is undertaken to ensure our videos productions

- align to curriculum standards,
- meet specific topics needed by teachers, and are
- adaptable to differentiated learning styles in the classroom

Our programs are targeted mostly for high school, in the subjects of math, science, food technology and hospitality, design and IT, careers, business, technical education, social studies, art and music. Our videos are available on DVD, with digital, streaming, duplication and broadcast rights available.

Web: www.visuallearningco.com

Principal contact: Stephanie Jerome

The Visual Learning Company specializes in the production of high quality, standards-based, core-curricular science videos and teacher's guides for elementary and middle school students. These live action videos teach life, earth, and physical science through beautiful imagery, graphics and animations. The videos and accompanying teacher and student materials focus on the key concepts and vocabulary required by major texts, national state standards and goals. It is our mission to help teachers teach and students learn visually, while experiencing the joy and thrill of science. Videos are available in VHS, DVD and MPEG-I and -4 formats for digital streaming.
